# SYNCHRO DIGIT PIEMME® TECHNOLOGY

Where technology meets the art of ceramics

**La tecnologia Synchro Digit Piemme, combinata con la Linea Continua, permette di creare superfici illimitate e di grande impatto visivo, anche su lastre di grande formato.**

**Questo processo innovativo garantisce un perfetto equilibrio tra struttura e grafica, con effetti tattili straordinari che conferiscono un valore unico ai prodotti finiti.**

**A differenza dei metodi tradizionali, la superficie tridimensionale non viene più creata mediante pressatura, superando così le limitazioni imposte dai classici stampi ceramici e aprendo la strada a un'ampia gamma di possibilità creative. Ogni progetto può così vantare dettagli ad alta definizione e una ricchezza materica senza precedenti.**

Piemme's Synchro Digit technology, combined with the Continuous Line system, enables the creation of limitless, visually striking surfaces, even on large-format slabs.

This innovative process ensures a perfect balance between structure and design, with extraordinary tactile effects that add unique value to the finished products.

Unlike traditional methods, the three-dimensional surface is no longer created through pressing, thus overcoming the limitations of conventional ceramic molds and opening the door to a wide range of creative possibilities.

As a result, every project features high-definition details and an unprecedented material richness.

Die Synchro Digit Piemme Technologie in Kombination mit der „Contina Line“ ermöglicht die Gestaltung grenzenloser Oberflächen mit starker visueller Wirkung – auch auf Großformatplatten.

Dieses innovative Verfahren schafft ein perfektes Gleichgewicht zwischen Struktur und Grafik und erzeugt außergewöhnliche haptische Effekte, die den fertigen Produkten einen einzigartigen Mehrwert verleihen.

Im Gegensatz zu traditionellen Methoden wird die dreidimensionale Oberfläche nicht mehr durch Pressung erzeugt. Dadurch werden die Beschränkungen klassischer Keramikformen überwunden und der Weg für ein breites Spektrum kreativer Möglichkeiten geöffnet. Jedes Projekt zeichnet sich durch hochauflösende Details und eine bislang unerreichte Materialtiefe aus.

La tecnologia Synchro Digit Piemme, associée à la « Ligne Continua », permet de créer des surfaces infinies à fort impact visuel, y compris sur des dalles de grand format.

Ce procédé innovant garantit un équilibre parfait entre structure et graphisme, offrant des effets tactiles exceptionnels qui confèrent une valeur unique aux produits finis.

Contrairement aux méthodes traditionnelles, la surface tridimensionnelle n'est plus obtenue par pressage : les contraintes imposées par les moules céramiques classiques sont ainsi dépassées, ouvrant la voie à une liberté créative inédite.

Chaque projet se distingue par des détails en haute définition et une richesse de matière sans précédent.

## PIEMME SLABS

Innovate, Create, Captivate

**Le lastre Piemme nascono per realizzare ambienti total look. Disponibili in diversi effetti e colori, sono il perfetto connubio tra estetica e funzionalità. Grazie alle caratteristiche tecniche, alla resistenza e durezza, si prestano molto bene per pavimentare e rivestire spazi privati, in sovrapposizione a materiali preesistenti, e per rivestire pareti e facciate di edifici pubblici come scuole, ospedali o uffici.**

Piemme slabs are designed to create fully coordinated environments. Available in a variety of effects and colors, they offer the perfect balance of aesthetics and functionality. Thanks to their technical performance, strength and durability, they are ideal for flooring and cladding in private spaces, including installation over existing surfaces, as well as for use on walls and facades in public buildings such as schools, hospitals and offices.

Die Großformatplatten von Piemme sind für die Gestaltung von Total-Look-Konzepten entworfen. Erhältlich in unterschiedlichen Effekten und Farben, vereinen sie Ästhetik und Funktionalität in perfekter Balance. Dank ihrer technischen Performance, Widerstandsfähigkeit und Langlebigkeit eignen sie sich hervorragend für Boden- und Wandbeläge in privaten Räumen, auch zur Verlegung auf bestehenden Materialien, sowie für Anwendungen an Wänden und Fassaden öffentlicher Gebäude wie Schulen, Krankenhäusern oder Büros.

Les dalles grand format Piemme sont conçues pour créer des environnements total look. Disponibles dans une large gamme d'effets et de couleurs, elles représentent l'alliance parfaite entre esthétique et fonctionnalité. Grâce à leurs performances techniques, leur résistance et leur durabilité, elles se prêtent parfaitement aux revêtements de sols et de murs dans les espaces privés, y compris en pose sur des matériaux existants, ainsi qu'aux applications sur les murs et façades de bâtiments publics tels que les écoles, hôpitaux ou bureaux.
